Your full 360 bespoke glazing providers. From design to installation, we lead the market from the front.

Speculo Glass Interiors Ltd are bespoke glazing professionals with 25+ years of hands on experience and knowledge. This is supported by our strong supply chain giving us the edge in this highly competitive market.

Our product range provides glazing for both interior and exterior environments including single and double glazed partitions, fire rated glazing, glass balustrades, decorative glazing and structural glazing systems.

We offer a full 360 service from specification to design all the way through to installation. Our project turnaround times are highly efficient ensuring customer satisfaction, along with the quality of our products and our customer service.

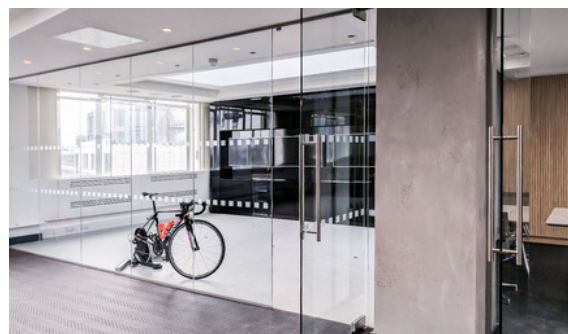

## Single Glazed Partitions

38dB (Rw) Single Glazed Partition System

Single glazed partitions are a great way of dividing space, leaving a spacious and productive feel whilst still providing privacy for phone calls and meetings.

Our single glazed partitions will transform your space ensuring a flood lit, stylish and modern environment.

- Install height up to 3.6m
- Up to 38dB acoustic rating
- + / - 25mm deflection head
- Glazed, acoustic or timber doors
- Toughened & acoustic glass type
- Powdercoated or anodised finish
- Fully de-mountable partition

## Double Glazed Partitions

46dB (Rw) Double Glazed Partition System

Dividing space with double glazed partitions is a great and seamless way to decrease noise levels for offices and meeting rooms.

Our double glazed partitions with integrated acoustic doors will provide your area with the noise reduction you require.

- Install height up to 3.6m
- Up to 46dB acoustic rating
- + / - 25mm deflection head
- Glazed, acoustic or timber doors
- Toughened & acoustic glass type
- Powdercoated or anodised finish
- Fully de-mountable partition

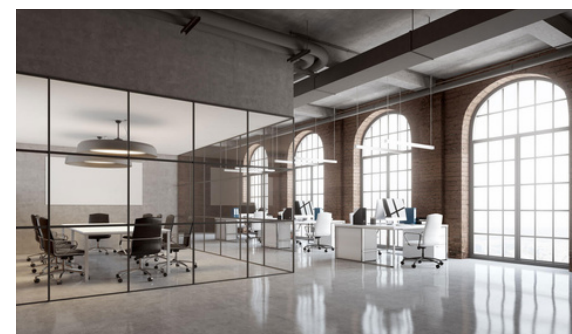

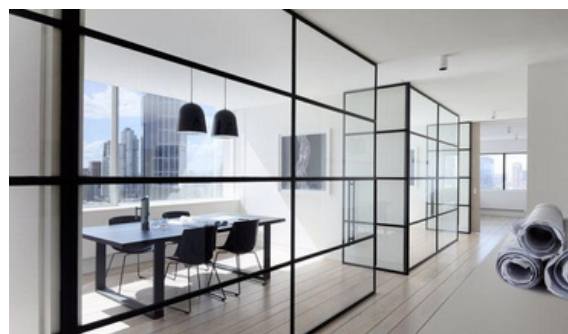

## Cross Bar Glazed Partitions

### 46dB (Rw) Cross Bar Glazed Partition System

With it's recent trend cross bar glazed partitions have transformed spaces creating a modern, industrial resemblance suitable for any space.

Our system is completely bespoke and tailored to each individual clients specification. Developed using aluminium sections this system caters for both the residential and commercial market.

- Install height up to 3.6m
- Up to 46dB acoustic rating
- + / - 25mm deflection head
- 25mm - 50mm aluminium cross sections
- Glazed, acoustic or timber doors
- Toughened & acoutic glass type
- Powdercoated or anodised finish
- Fully de-mountable partition

## Fire Rated Systems

E30, EI30 & EI60 Fire Rated Glazed Partition Systems

Our fire rated systems provide glazed partitions & doors for E30, EI30, E60 & I60 fire ratings. Constructed from a combination of aluminium and steel our systems offer a slimline, seamless and robust solution.

All our systems are fully tested, certified and de-mountable offering integrated full height single and double door sets.

- Install height up to 3m
- Up to 52dB acoustic rating
- + / - 25mm deflection head
- Glazed single & double door sets
- Tested glass types
- Cross bar style available
- Powdercoated or anodised finish
- Fully de-mountable partition

## Glass Door Systems

Seamless, Acoustic & Fire Rated Door Systems

Frameless Doors

Acoustic Doors

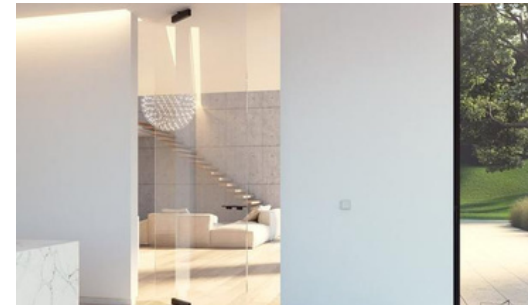

Cross Bar Doors

Fire Rated Doors

Sliding Doors

Moveable Walls

Timber Doors

All our systems offer integrated door sets and frames to achieve the right aesthetic and specification you require.

## Glass Balustrade Systems

0.74kN to 3kN Glass Balustrade Systems

Our glass balustrades offer bespoke design, installation and structural engineering on all our products. We use a vast range of fixing solutions from stainless steel posts, point fixings and frameless base channel.

All our systems offer line loads from 0.74kN up to 3kN with our glass being made to measure ensuring compliance with building regulations. As an added detail we offer digital printed and diffused interlaid glass.

## Structural Glazing

### Framed and Frameless Glass Entrance & Atrium Systems

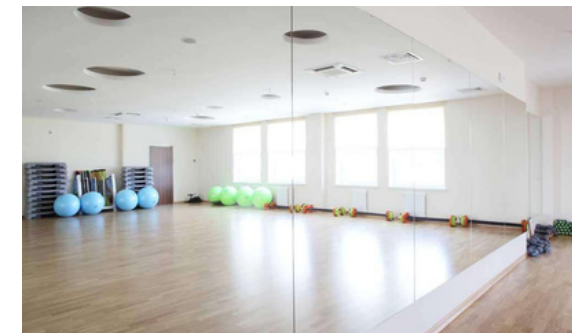

Glazed entrance systems and atrium glazing provide a seamless, naturally lit space while offering high structural stability performance.

We offer aluminium systems with intelligent thermal and non-thermal broken properties with the option to accept triple glazed units for increased thermal, solar and acoustic protection.

Our systems are secure by design and Part Q compliant.

## Mirrors & Decorative Glazing

Digital Printed Glass, Splashbacks & Mirrors

As well as our standard clear glass we provide a range of bespoke products offering a more creative dynamic.

These include low iron digital printed, RAL or colour matched back-painted glass, silver & antique foil safety backed mirrors, digital printed glass screens & balustrade glass and diffused interlaid laminated glass.

All these solutions are fully compatible and easily integrated into our systems or stand alone.

## Manifestation & Graphics

### DDA Compliant Glass Graphics

By law it is a requirement to have manifestation. This is a great opportunity to enhance the style and dynamic of your space by creating something completely unique to go on your glass partitions.

We offer a full design and installation service on all glass manifestation requirements whether it be standard DDA dots, to your company logo or even an image or bespoke design.

There is freedom of design when it comes to manifestation.
